MINIMET

Compact Instrument
Enclosures

Small electronic instrument enclosures

Compact, stylish aluminium housings designed for small tabletop and portable electronics. Available in eight sizes, they feature quick assembly and a removable base panel with four M3 PCB pillars. Accessory anodised or painted front/rear panels are recessed by 8 mm on one side and 14 mm on the other. Four self-adhesive, non-slip feet are included. Order your own fully customised version.

Standard colours

Light grey RAL 7035

Order your own customised version

We can supply the MINIMET enclosures fully customised to your individual technical specifications.

External dimensions – width and depth – can be modified to ensure your PCB assemblies and equipment will fit exactly.

The enclosures and front panels can be machined with holes and cutouts for fitting displays, keypads, HMI touch panels, control buttons and connections.

Other services include adding inserts and screw bosses; custom colours and finishes; digital and silk-screen printing, and engraving.

Having a flexible manufacturing system allows us to offer competitive prices even for small quantities. Do not hesitate to ask us for a quotation.

Our sales team will be very happy to discuss your requirements and help you specify your MINIMET enclosures exactly as you need them.
